## 漢字 22: Mechanism (機)

機

機

The general sense is of mechanisms and things employing a mechanistic action (the final compound below provides an interesting example).

This 漢字 also conveys the idea of *opportunity* or *chance* in some of the compounds in which it appears (as in the first compound).

This is, incidentally, the only time in the general-use 漢字 that the character for “how many” figures as a component in another character.

## ∈ Composition

| Glyphs  | 木 + 幾                |
|---------|----------------------|
| English | Tree + How Many (??) |

## ♣ ∈ Meaning ↔ Glyph Components

A mechanism for counting [how many] [trees] there are.
