	♪ Pronunciations	
	ONYOMI	kunyomi
Cm.	カイ (KAI)	あ; ひら (a; hira)
L.C.	—	—

In the general physical of “to open”, あく and あける function as a normal intransitive/transitive verb pair.

ひらく is more concerned with a metaphorical or non-physical sense of “opening”, and appears primarily in expressions (in the “opening”, for example, of a conference, of new lands, or of cherry blossoms).

Expressing the sense of a shop's front door being open would thus call for the verb あく, while conveying the idea of opening a business would require ひらく.

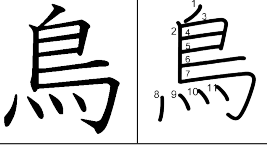

In the first position, this kanji invariably takes the onyomi.
